

2023 Registration Process and Welcome Message

The registration process of the University went well, and it is in its successful conclusion. The success of the registration process for both new and returning students to access quality education was made possible because of the commitment and dedication of our staff and students.

Academic work including classes started on the 13th of February 2023. I, as a member of the Management Executive Committee responsible for Student Affairs, would like to warmly welcome you to the University of Accessible Excellence, Stature and Societal Impact.

Maths prodigy, Kelebogile eyes science and technology career

FOOD FOR THOUGHT

CHATGPT signals the end of education as we know it

The Fourth Industrial Revolution and the technological development of big data, cryptocurrencies and artificial intelligence (albeit in its infancy) have propelled humanity to the brink of a post-human era where continued technological advances run a very real risk of rendering traditional educational structures obsolete.
